PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries); (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Chernyatino Army Barracks is located 43 kilometers (km) northwest of Ussuriysk and 13 km southeast of a related training area at Novogeorgiyevka (Figure 1).

The installation covers approximately 970 acres and contains 5 administration buildings, 14 barracks, 33 housing units, 2 storage buildings, 5 probable explosives storage buildings, 5 vehicle sheds, and 26 support buildings. Training facilities consist of lathletic field, 1 tracked-

vehicle driver-training course, and 1 possible subcaliber range (Figures 2 and 3).

quality covered the area from to Initial coverage indicated that the installation was active, but the quality of the coverage precluded detailed interpretation. Comparative analysis from through

25X1D

indicates no significant change.

Track activity on the driver-training course has remained at a medium level.

25X1D

DESCRIPTION OF INSTALLATION

Railroad Service

Rail service is available in Golenki, 29 km east-northeast.

Road Service

The installation is on a probable all-weather road which connects Novogeorgiyevka with Ussuriysk.

Administration and Troop Housing Areas

Area D1 contains 24 quarters-type housing units (not shown on Figure 2).

Area D2 contains 4 administration buildings, 14 barracks, 9 quarters-type housing units, and 10 support buildings.

General Storage Area

Ammunition Storage Area

Area F, probably secured by a fence, contains 5 probable explosives storage buildings.

Other Buildings

An administration-type building and 9 support buildings are dispersed throughout the area.

Equipment Storage/Maintenance Area

Area J contains 5 vehicle sheds, one 340 by 30 feet, two 310 by 30 feet, and two 240 by 50 feet, and 5 support buildings.

Athletic Field

Area K is an athletic field.

Driver-Training Area

Area M is a tracked-vehicle driver-training course.

Tank/Assault-Gun Firing Range

Area N is a 510- by 70-foot possible subcaliber range. Activity on this range has remained light.
